

# Decision Analysis Table

System	Feature										Total	Ranking		
	PRO-R	PRO-N	CHO-P	ONECP	EASV	EASC	EASBC	EW&E	LOC	PLOC			STAB	
FPTP(SM)														
AV(SM)														
PL(MM))														
PLRC(MM)														
PLRO(MM)														
STV(MM)														
AMS(HY)														
AV+(HY)														
AV+50(HY)														

Please complete this table to record your own version of the Decision Analysis Table

1. Assign Weighting Factors (from 0 to 10) to the features

2. Next mark out of 10 how well you think each electoral system measures up to each feature.

If you wish:

3. Multiply each feature mark by its Weighting Factors to give the figures in brackets (see article)

4. Finally add together the weighted/bracketed figures for each system to obtain a total score (which could then be ranked)

Please return the sheet to Bob Jones (81 Bafford Approach, Charlton Kings, Cheltenham, Gloucestershire GL53 9JD; Tele: 01242-525581), or alternatively, contact Brian.Wichmann@freenet.co.uk to obtain an email version.

Bob Jones has kindly offered a small prize to the first 5 completed tables: a Welsh Castle portrayed on a Welsh slate coaster. Bob also hopes to produce a second edition of his paper(Comparison of Electoral Systems) and post a copy to you.
